License #16282

SIGHT UNSEEN PURCHASE OPTION:

If you are unable to attend the auction in person, simply contact the MCS marketing team:

- Describe your selection criteria and the type of female(s) you wish to purchase and your price range.
- You pay only the bid price, just as if you were bidding in person.
- We will call after the sale to confirm your purchase and you can confirm your payment method and arrange shipping.
- You decide if the animal meets your criteria upon delivery. If you are not happy with your purchase, you don't own it.

TAKE NOTE:

Radale Tiner (979-492-2663) the regional manager for the American Angus Association for Texas and New Mexico has seen all of the females. Although Radale will be at another sale this day, he will be glad to assist you. The sale managers, sale consultants and ringmen will also be glad to assist you with your selection decisions.

GENOMIC MARKER TEST:

Fall calving heifers, spring bred heifers and open heifers have all been DNA tested with the Zoetis HD50K.

SALE ORDER & SUPPLEMENT:

Sale order and supplement will be available at www.mcsauction.com prior to the sale.

VIDEOS OF SALE CATTLE:

Videos will be available to view at www.solidrockranch.com by 9/20/21.

Welcome to the first Maternal By Design Angus Female Sale being held on Saturday, October 2, 2021 at Mound Creek Ranch near Leona, TX. We are excited to offer a balanced set of productive females ranging from open heifers ready to breed this fall to proven cows. The Solid Rock Ranch herd was established in 2001 with the initial purchases of several foundation females originating from long running, notable programs in the breed. Additional purchases were made in the next couple of years to complete the base cow herd. These foundation females were the result of programs like Partisover Ranch/Spur Ranch (308 family), Gardiner Angus (335 family) R A Brown Ranch (639 & 4545 families), Fink (769 and 1993 families), Ohlde Cattle Company (824 and 846 families), Jorgensen Ranches (2243 family), Hinman Angus (3114 family), Ellis Angus Farms (3931 family), McCurry Brothers (4876 family), Thomas Angus Ranch (4440 family), Drake Farms (5028 family) and Shamrock Vale Farms (6001 and 6034 families). These foundation females were carefully selected with the same criteria being used in our breeding program today and provided a solid, proven maternal base cow herd.

Welcome

The Solid Rock Ranch herd is built around a breeding philosophy focused on producing practical, productive, efficient females with emphasis on balanced traits, structural soundness, udder quality, capacity and phenotype. Young sires are sampled and proven sires are utilized after much study in the effort to produce a herd of females with manageable levels of performance and milk for our feed resources that will still produce bulls in demand by our commercial cow-calf customers. This November 3 will be the fifth annual Cowmaker Bull

Sale which was held in Groesbeck, TX for three years and is now held in Crockett, TX. Repeat, satisfied customers validate the bull producing value of this maternal base of females. We are also placing enough emphasis on appearance and added thickness while maintaining an acceptable level of calving ease that many of these females could go into show heifer, club calf, SimAngus, Ultrablack or other programs in addition to traditional production oriented purebred Angus programs.

You will notice the spring and fall bred heifers are bred to calve at 2 ½ years of age and the open heifers are ready to breed this fall so they will also be calving at 2 1/2. We made the decision a few years ago to postpone the time of first breeding in order to allow us to develop the heifers a little more slowly and to better match our feed resources which are mostly Bahia grass on low fertility sandy soil. Having the initial calf a little later also gives these heifers a chance to lose their baby teeth and grow permanent teeth typically prior to that first lactation and be a little further along in the growth and maturity giving them a better chance of rebreeding success without having to overfeed them. You will also notice some of the cows being a little thinner than others. These females were on multiple places until late August to early September and some of those had a lot better grass and more availability than others. Don't let differences in condition scare you away from buying some good young females.

Please don't hesitate to call me, the sale manager, the sale consultants or any of the sale staff if we can be of any assistance. Trucking can be arranged as needed and internet bidding is available through LiveAuctions, but we would rather have the opportunity to meet you and allow you to appraise the cattle in person. Lunch will be available prior to the sale and the cattle will be displayed in small traps so they will be very easy to evaluate. See you on October 2.

Matt Jones

Dear Friends and Fellow Cattlemen,

Welcome to the First Annual Solid Rock Female Production Sale. This inaugural lineup features an outstanding set of Angus females that are a sound, functional group that excel in phenotype and individual performance while maintaining a strong genetic base with numerical balance and diversity. Whether you are simply adding to your herd, seeking an outstanding donor dam or looking for your next female to produce your show ring champion or herd bull, you will find what you are looking for among this exceptional offering. The bred females are mated to breed leading sires as well as Solid Rock's top resident herd sires and Matt is offering his top replacement females.

For each transaction that is made Matt Jones wants the customer to be satisfied. Solid Rock strives to build lasting relationships.

I encourage you to evaluate the needs of your program, and join us Saturday, October 2, for this inaugural event. Please do not hesitate to call me with any questions or if I can help you in any way.

Sincerely,

Matt C. Sims

Sale Manager

- It got a little hot and the sun got a little high the day we were taking pictures of these heifers before we took one of this heifer, but she is well worth one. Good cows throughout her pedigree going back to a Final Answer daughter, 335W4, of the foundation female for the Queen cow family in the Solid Rock Ranch herd, Deer Creek EXT 335. Dam is a Pay Raise and granddam is linebred to Final Answer. Consistent, predictable genetics in this high performing Bonanza daughter.

- **AI 1/8/21 to Connealy Emerald. PE 2/10/21-5/26/21 to S Rock Sonic 5028G2. Due 10/20/21 to Connealy Emerald.**
- Bigger framed Thunder daughter out of a powerful Final Answer bred female, 846W7, from the RR Blackbird cow family. The foundation RR Blackbird in this herd is her great granddam, O C C Blackbird 846B, bred in the Ohlde program. Safe to the low birth weight, high-performance Confidence Plus son, Connealy Emerald.

TERMS AND CONDITIONS

BIDDING

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids and his decision on such matters shall be final.

TERMS

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of \$5.00 per day will be assessed until pickup, unless we arrange shipment.

CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each registered bull or registered female once proper settlement has been made.

RETAINED INTEREST

Seller is retaining 1/3 semen interest on all registered Angus bulls unless otherwise noted. Buyer has full possession and full salvage value. In the event the seller wishes to collect semen, buyer may participate in the collection and share expenses or seller will own the whole collection at seller's expense. Collection will be at the buyer's convenience.

HEALTH

Health papers suitable for interstate shipment will be furnished on all animals.

ANNOUNCEMENTS

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

BREEDING GUARANTEE

1. All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.
2. Any bull which settles cows by natural service and passes a fertility test made by competent veterinarians, mutually agreed upon by the buyer and seller, during any six month period of trial (provided for in paragraph 2 of the section of these sales terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder.
3. Safe in calf females have been examined by competent

personnel and are so guaranteed. Exposed females have been exposed but are not guaranteed to be safe in calf. Open females have not been served and are so guaranteed.

PREGNANCY DETERMINATION

The females in this sale noted safe in calf have been determined pregnant by physical palpation. Our best estimate of service sire & expected calving date will be given in the case of the females with both an A.I. sire and a natural breeding sire.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

1. All claims for adjustment or refund must be made in writing within six months of the sale date.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the seller if in good condition and complying with the health requirements of Texas. The seller shall be entitled to a six month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.
3. If a bull is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
4. If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

RIGHTS AND OBLIGATIONS

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.
2. The sale manager or any other person connected with the management of the sale assumes no liability, legal or otherwise.
